**SCHEDULED COMPLETION:** 07

**B. DESCRIPTION AND LOCATION:**

Create new parking spaces, relocate and widen certain areas of driving system for traffic safety; repair approximately 300 linear feet of sidewalk, and 5,870 square yards of driveway paving.

**C. PURPOSE AND JUSTIFICATION:**

Increased traffic volume has created several hazardous intersections. Sidewalk systems and pavement have deteriorated.

**D. SUMMARY OF IMPLICATIONS:**

Maintenance costs of sidewalks and walkways will increase and parking bottlenecks in vicinity of the Allied Heath Building will become more severe.

**B. DESCRIPTION AND LOCATION:**

Ortho-photo (digital aerial photo) will be updated county-wide including partnerships with municipalities. The photos will be updated at 50 scale and color, to replace our current black and white 200 scale photos, flown in 1997.

**C. PURPOSE AND JUSTIFICATION:**

The GIS System is keeping up with the latest in technology through the use of interactive mapping accessible through the county's website. More local jurisdictions are seeing the benefits of online mapping and eventually everyone will come to expect it. In order to keep our internet sites up to date, and for our everyday use, we must plan to have the county re-flown by at least 2006.

**SCHEDULED COMPLETION:**

**B. DESCRIPTION AND LOCATION:**

Parcel Data will be developed county-wide including partnerships with municipalities.

Addressing will assist E-911 with their enhanced mapping system with live addressing updates from the county's SDE server

The information will be shared through Internet mapping on the county's website

**C. PURPOSE AND JUSTIFICATION:**

Parcel data, once overlaid on county photography, will give county departments, consultants, developers and real-estate agencies the ability to accurately review ownership data from land records in a geographic format verses the cumbersome hardcopy search through court records and books.

Addressing will support primarily E-911 and will include data ranges for more accurate house/property location.

**D. SUMMARY OF IMPLICATION**

Up to date, accurate Address data is critical to E-911 services while parcel data is also an important data component to geographic mapping for E-911 emergency response.

**SCHEDULED COMPLETION: 05-05**

**B. DESCRIPTION AND LOCATION:** Planning, design, and renovation of Old C&P RR Depot in Frostburg for use as a visitors center in support of Highlands Trail, WMSRR, and Frostburg Trail.

**C. PURPOSE AND JUSTIFICATION:** County owns Old Depot. Restrooms exist, but are insufficient for future demand and are not accessible. Building HVAC system is inefficient for peak summer/winter weather operations. Basic improvements are needed to reuse the facility as an attraction and visitor information center by 7/1/05 when AHTrail is done.

**D. SUMMARY OF IMPLICATIONS:** Building is underutilized and will be focus of Trail users plus SRR in 2 years' time. Building is out of compliance with ADA Act, and out of compliance with funding agreement to keep open to visitors 5 days a week.

**C. PURPOSE AND JUSTIFICATION:** Affordable high speed Internet access is critical to many sectors of the national economy. Private telecom firms cannot make a profit extending fiber optic cable in rural areas. Wireless technology is ready and Allconet system can be used for County/Allconet to provide this essential e-infrastructure to technology-sensitive businesses (biotechnology, advancing manufacturing, and many small business sectors).

 1-sewer tr. plant; 2-road entrances; waterline  
**SCHEDULED START:** 07-03  
**SCHEDULED COMPLETION:** 07-06

**B. DESCRIPTION AND LOCATION:** US Route 220, south of intersection with MD Route 956 on east side of highway, near Pinto. Waterline extends from connection to Cumberland system north of Cresaptown to Park and then west to tank site in foothills of Dans Mtn. Includes access road, water/sewer lines, sewage treatment plant, waterline extension, electrical extension/substation, & site work.

**C. PURPOSE AND JUSTIFICATION:**

County-owned or controlled properties for locating new or expanding firms are at capacity. Creation of a new industrial park for advanced manufacturing will allow the County to continue marketing to companies for new job creation in a higher wage sector, plus continue economic diversification.

**D. SUMMARY OF IMPLICATIONS:** Not pursuing a new park will lead to insufficient marketable land for new or expanding companies. There is not enough demand a private sector developer to finance economic development infrastructure.
